

## Elicitus Content Publisher

Create more eLearning with less authoring.

### Key Benefits

**No programming any time:** Wizards, forms, templates make Elicitus easy to master. Provides ten question types and navigation styles without programming or scripting

**Visual appeal:** Great visual layouts ready-made for those who do not have time or skills to create elaborate designs. Flexibility for those who do. Standards-compliant publishing: Publishing in a single click to AICC/SCORM LMS, web site, CD-ROM, or slide shows.

**Standards-compliant publishing:** Publishing in a single click to AICC/SCORM LMS, web site, CD-ROM, or slide shows.

**Rapid Interactivity Building:** Create millions of variations of interactivities using Raptivity for Elicitus.

**Productivity:** Make one-time changes at master level, which consistently and automatically reflect in related content.

**Standards-compliant publishing:** Publishing in a single click to AICC/SCORM LMS, web site, CD-ROM, or slide shows.

**Database to eLearning:** Leverage existing questions and assessments. Import test questions from comma delimited file formats. Also import glossary terms.

**LMS interoperability:** Track your courses using any SCORM/ AICC compliant Learning Management System.

**Courses in multiple languages:** Elicitus supports courses in many languages supported by Unicode.

Leverage the Elicitus Suite all the way from PowerPoint® to interactive eLearning. Elicitus accurately converts PowerPoint® content. Raptivity for Elicitus allows you to add interactivity to your courses. The award-winning Elicitus Content Publisher helps you rapidly create SCORM and AICC standards-compliant eLearning courses.

For more information about Elicitus Suite, call us at (425) 861 - 8400 or write to [info@elicitus.com](mailto:info@elicitus.com)

### Rapid Authoring Features

- New course Wizard for creation of complete course hierarchy of learning units, lessons, assessments and topic pages with global course preferences

### Assessment and Tracking Features

Question Types	Multiple choice True/ False Drag and drop Fill in the blanks (in-line entry) Fill in the blanks with wildcard Match the pairs Multiple correct answers Graphic choice Multiple text entry Visual identification
Can include multimedia in questions	Yes
Hint Levels	2
Maximum score settings	Yes
Feedback Options	Correct answer feedback Different response for each wrong answer
Feedback Timing Options	Immediately after attempting question

	At the end of assessment
Can re-use questions in several Assessments	Yes
Progress tracking options	Assessment (saves tracking data)Exercise (only for practice)
Test questions can be imported from tab or comma delimited file formats	Yes
Custom navigation in assessments allows you to implement assessment-navigation policy	Yes
Questions can be randomized in a quiz or test	Yes
Questions can be pooled from a pool of questions	Yes
Email score information/ print score Page	Yes
Timed Assessment	Yes
Custom question layout and visual appearance	Yes
<b>Glossary Builder</b>	
<ul style="list-style-type: none"> <li>➤ Uses multimedia objects in glossary, in addition to terms and their textual explanations</li> <li>➤ Author can define his own glossary categories and optionally classify each term under one or more categories</li> <li>➤ Four search options viz. Search by category, by clicking on a letter, by typing in the word, or by scrolling down a list of all terms</li> <li>➤ Customizable glossary. User can change background layout and font style for Glossary builder which can be viewed in published course</li> </ul>	
<b>Publish and Deployment Features</b>	
Tracking data AICC compliant	Yes
Tracking data SCORM 1.2 compliant	Yes
Tracking data SCORM 2004 compliant	Yes
Authoring tool 508 compliant	Yes
Output 508 compliant	Yes
Deployment of courses on server	Yes
<b>Other Features</b>	
<ul style="list-style-type: none"> <li>➤ Use of Model-View-Controller architecture</li> <li>➤ Robust learning experience combined with ease of use</li> </ul>	
<b>System requirements for course creators</b>	
<p>Minimum Hardware Requirements:            Intel(R) Core (TM)2 Duo CPU or higher            1 GB RAM            100 MB free hard disk space            256-color monitor</p> <p>Minimum Software Requirements:            Microsoft XP or windows 7 (with support for 32 bit and 64 bit OS)            Internet Explorer 7.0 or above, Firefox 3.5.3 or above</p>	

Google Chrome 4 and below, Safari 5.0, Opera 11.0  
.NET Framework 3.5 or above

**System requirements for learners**

Minimum Hardware Requirements:  
Intel Pentium IV Processor or higher  
512 MB RAM  
256-color monitor

Minimum Software Requirements:  
Internet Explorer 7.0 or above, Firefox 3.5.3 or above  
Google Chrome 4 and below, Safari 5.0, Opera 11.0

**No Plug-ins required; plays straight from the internet browser.**
